## Performance interior linear cove and accent luminaire with single temperature white light

eW Cove QLX Powercore represents the latest in high-quality linear LED cove lighting from Color Kinetics. This elegant, low-profile luminaire delivers up to 432 lumens per foot of white light at an affordable price. eW Cove QLX Powercore is designed to replace traditional cove lighting sources for wall and ceiling glow effects, wall washing, and indirect lighting from a single cove. Multiple color temperatures, beam angles, power levels, and lengths afford an abundance of design options.

- Industry-best white-light quality and color consistency—Advances in Optibin, Color Kinetics' proprietary binning optimization process, now provides color-consistency within a 2-step MacAdam ellipse across eW Cove product luminaires and manufacturing runs.
- Uncompromised Performance—Efficacies near or exceeding 100 lm/w provide optimum output without restrictions on lumen maintenance, operating temperature or warranty.
- Multiple options for design flexibility—Available in four color temperatures ranging from a warm 2700 K to a cool 4000 K. Lengths of 154 mm (6 in), 305 mm (12 in), and 1219 mm (48 in), wide and medium beam angles, and two power levels offer further design flexibility.
- Support for multiple voltages—eW Cove QLX Powercore accepts power input of 120, 220 to 240, or 277 VAC for consistent installation and operation from line voltage in a variety of locations.
- Smooth dimming capability—Smooth dimming capability—Patented DIMand technology offers smooth dimming capability with the DM-1000 0-10 V ELV Dimmer or selected reverse-phase ELV-type dimmers.
- Integrates patented Powercore technology—Powercore rapidly, efficiently, and accurately controls power output to luminaires directly from line voltage, eliminating the need for external power supplies and lowering total system cost.
- Easy mounting and positioning—End-to-end locking power connectors make 180° turns, for easy positioning in even the most challenging mounting circumstances. Luminaires rotate in 10° increments through a full 180° for precise aiming and beam mixing. Optional mounting tracks support vertical and overhead positioning. 305 mm (12 in) and 1.5 m (5 ft) jumper cables can add extra space between luminaires.
- Replaces traditional cove lighting—With excellent light output, competitive pricing, long source life, energy efficiency, and virtually maintenance-free operation.
- ENERGY STAR® qualified—As an ENERGY STAR® qualified LED luminaire (selected UL listed models only), eW Cove Powercore helps prevent greenhouse gas emissions by meeting strict energy efficiency guidelines set by the U.S. Department of Energy.

## Certification and Safety

Approbation	UL/cUL, FCC Class B
Certification	ENERGY STAR
Environment	Damp Location, IP20

\* Correlated color temperature (CCT) complies with ANSI C78.377-2008 for the chromaticity of solid state lighting products.  
† Lumen measurement complies with IES LM-79-08 testing procedures.  
‡ Refer to [www.colorkinetics.com/support/appnotes/](http://www.colorkinetics.com/support/appnotes/) for more information.  
§ Lxx = xx% lumen maintenance (when light output drops below xx% of initial output). All values are given at B10, or the median value where 90% of the LED population is better than the reported or calculated lumen maintenance measurement.  
¶ Minimum surge limits per IEC 61547, tested in accordance with IEC 61000-4-5.  
¶¶ Lumen maintenance figures are based on lifetime prediction graphs supplied by LED source manufacturers. Whenever possible, figures use measurements that comply with IES LM-80-08 testing procedures. In accordance with TM-21-11, Reported values represent the interpolated value based on six times the LM-80-08 total test duration (in hours). Calculated values represent time durations that exceed six times the total test duration.
