SunLight2® Architectural Grade RGB+TW LED tape is durable, energy-efficient and IP68 waterproof rated. The perfect solution for year-round outdoor illumination. It offers vibrant RGB colors and precision-tunable white light, for landscaping, patios, pools, and architectural highlights. With the award-winning, wireless control options, you can easily adjust colors, brightness, and schedules for any outdoor setting.

Discover Unmatched Flexibility and Durability in Outdoor Smart Lighting

- **IP68 Rating:** Designed for indoor/outdoor applications, this LED tape is waterproof and UV-resistant ensuring reliable performance even in wet, humid environments.
- **RGB+Tunable White LED:** Enjoy complete control over your lighting with infinite color-changing effects and adjustable white light from 2100K to 6500K CCT, High color accuracy CRI 90+.
- **Versatile Applications:** Ideal for landscape lighting, patios, decks, pools, commercial signage and architectural accents.
- **Energy-Efficient:** Provides an energy-saving solution for both functional and decorative lighting.
- **Smart Control:** Easily control lighting using our advanced, award-winning IoT connectivity for seamless integration to adjust colors, brightness, and schedules.
- **Long-Lasting Durability:** Built to last with high-quality materials for long-term performance in outdoor environments.
